- ✓ INCREASE THE PULL FOR RETURN VISITS
- ✓ EASILY PORTABLE UNITS TO FIT YOUR SPACE

ADD A FAMILY-FRIENDLY FEEL TO YOUR ESTABLISHMENT

- WITH NEW AND EXCITING PLAY DESIGNS FROM KOMPAN

Providing a family-friendly environment in your establishment, where children have an exciting place to play while parents have time to focus on their needs, can be the defining difference between a poor overall family experience and a great one.

KOMPAN's new play designs are an exciting combination of play, convenience and fun. With their numerous play activities, they will immediately attract children's interest and keep them engaged in play. At the same time, the designs are flexible, durable and take up only a minimum of space.

Originally developed for child care centers, day cares and kindergartens, extensive testing with young children has been performed to ensure that the play designs are fun, safe and engaging.

This is also your guarantee that they will help children and their parents have a positive experience when visiting your establishment.

- Core produced from 100% recycled material
- Recyclable after use
- Covered by our lifetime warranty
